

"Is this really My Europe"

by Charlotte Meletli

This is a symbolic and cartoonist painting of the European flag and what Europe can mean to many different people.

It represents, to me, what's wrong, what's right, the opportunities and how we can be hopeful within the EU.

Each stick character hopes to relate to someone and hopefully everyone and anyone can find themselves inside the flag. My inspiration was taken from the "The Blob Tree" Feelosophy; "The Blobs are neither male nor female, young nor old, European nor African, ancient nor modern. They are outside of culture."
